

Press Release

Shadrach releases debut CD, 'Captured'

There is a rock band from North-Central WV that deserves to be heard and seen. The group is called Shadrach and their much anticipated debut CD "Captured" is set for release on January 19, 2013. Shadrach will be performing their original songs live at the Goal Rush in Worthington, WV on January 19th for the CD release party starting at 9 PM. A camera crew will be present to capture the performance with a live video shoot. The public is invited to participate in this music video, which is to be nationally released.

Formed in Grafton, WV, Shadrach dedicated the past year to writing, recording and performing their originals in club and concert venues throughout the tri-state and east coast regions - recently opening for Bo Bice of American Idol notoriety. The result is the completion and release of the Captured CD.

Shadrach's CD kicks off with an energetic instrumental called "Fanfare" that gives one the impression of being at a live concert performance, setting the tone for the second rock tune, "You Got Me".

The CD's title song "Captured" with its strong, pulsating rhythm and alluring vocals demonstrates Shadrach's strength in musical composition, arrangement and performance. The interwoven keyboard and guitar solos compliment the rhythmic drive, adding a level of intrigue to the mood of the song.

"Heaven For You" is a passionate ballad laced with undertones of blues-rock guitar riffs and soulful vocals, sung by lead vocalist John 'Ziggy' Hall. "I wanted the emotions to carry through the lyrics, vocals and instruments when I wrote this song." says Ziggy of his composition.

The CD takes the listener through a labyrinth of songs that are cohesive to the band's rock style, yet unique to each song as shown on the tracks "Strange Affair" and "The Journey". For the finale, Shadrach rocks out with the dynamic, up-tempo song "Hold On" layered with strong vocals, lead guitar work and concert-style ending that leaves the listener wanting to play the CD again.

"It's rare to find a group of musicians who are not only great players individually, but share a common mind-set when performing in the studio and on the stage." says Steve Paris.

Shadrach consists of Skip Mason on guitar and backing vocals, John 'Ziggy' Hall on lead vocals and guitar, Steve Paris on keyboards and backing/lead vocals, Dave Sbarra on bass and backing vocals, and Pat McCleary on drums and backing/lead vocals. Songwriters for the band are Steve Paris, Ziggy, Pat McCleary and Shadrach collectively.

Shadrach's CD "Captured" is a testament to band's musical creativity and performance capabilities. Shadrach is a must for rock music fans to see and hear.
